PROFESSIONAL SUMMARY.

I am a versatile IT professional with proven success in system administration, cloud computing, hardware troubleshooting digital literacy initiatives, and ICT support in public institutions. I am skilled at integrating cutting-edge technology solutions and fostering digital literacy initiatives. Highly adaptable, with strong project management and mentorship skills, ensuring that technical and strategic goals are met efficiently. I am committed to staying updated with the latest tech advancements and driving innovation in dynamic environments.

CORE COMPETENCIES.

- **System Administration & Server Management** – Maintaining and updating servers, performing hardware repairs, and ensuring security best practices.
- **Cloud Services & Virtualization** – Familiar with cloud deployment, configuration, and virtualization technologies.
- **Networking & Troubleshooting** – Skilled in network setups, diagnosing IT issues, and ensuring uptime.
- **Project Management** – Experience in planning, coordinating, and executing IT initiatives.
- **Data-Driven Decision-Making** – Using analytics to inform strategic improvements eg excel and SPSS.
- **Teaching & Mentorship** – Spearheading coding clubs, training students in **Scratch** and other beginner-friendly programming tools.

PROFESSIONAL EXPERIENCE.

TECHNICIAN, ZATE COMUNICATIONS.

Omninet network services, Kisumu | *November 2025 – ongoing.*

- Installed and configured Wi-Fi and wired network systems for residential and commercial clients, ensuring reliable and high-speed internet connectivity.
- Set up and managed hotspot networks, including router configuration, bandwidth management, and user authentication systems.

- Diagnosed and resolved network issues such as connectivity failures, slow speeds, IP conflicts, and hardware malfunctions.
- Performed device repair and troubleshooting for routers, switches, access points, and client devices to minimize downtime.
- Provided on-site technical support and customer guidance on network usage and basic troubleshooting.

Key Outcomes:

- Improved network stability and customer satisfaction through timely troubleshooting and proactive maintenance.
- Successfully deployed and maintained multiple hotspot configurations across Kisumu, expanding reliable internet access.
- Reduced service downtime by implementing systematic diagnostics and preventive maintenance procedures.

Experience Ai trainer(Consultant), Futures Infinite.

WESTERN REGION, KENYA | *December 2025 to February 2026.*

- Facilitated **Experience AI training programs** for teachers across schools in the Western Region, introducing practical applications of Artificial Intelligence in education.
- Delivered structured training sessions on **AI fundamentals, responsible AI use, and emerging digital technologies** to improve digital literacy among participants.
- Guided educators on how to **integrate AI tools into classroom learning**, supporting innovation in teaching and learning methods.
- Provided hands-on demonstrations of **AI-powered tools and platforms** to help participants understand real-world technology applications.
- Supported training coordination, participant engagement, and technical facilitation during regional workshops.

Key Outcomes:

- Successfully trained multiple educators and learners on **Experience AI concepts and tools**, increasing awareness and adoption of AI in schools.

- Strengthened digital literacy and emerging technology knowledge among participants in the **Western Kenya education ecosystem**.
- Contributed to the **expansion of AI education initiatives** aimed at preparing learners for future digital careers.

Fellow, Teach For Kenya.

Ezra Gumbe Comprehensive School, Kisumu | *January 2024 – December 2025.*

- **Implemented** a code club curriculum for 30+ learners, increasing digital literacy new trend on Ai (tools) and coding interest.
- **Developed** and **delivered** innovative lesson plans, focusing on basic computer skills, AI and **Scratch** programming.
- **Collaborated** with teachers to integrate technology in classrooms, enhancing student engagement by 20%.
- **Researched** and **presented** new teaching methodologies, promoting interactive and inclusive learning environments.

Key Outcomes:

- Established a code club, boosting student participation in STEM activities.
- Strengthened classroom tech adoption, resulting in higher retention of computer fundamentals.
- Ensuring that the ICT devices withing the school are functioning properly.

IT Intern, ICT Authority.

Kisumu County | *June 2022 – September 2022.*

- **Provided** technical support for hardware and software installations, reducing downtime by 15%.
- **Coordinated** infrastructure updates and upgrades as we checked for compliance and enforces standards, ensuring 100% compliance with county IT policies.
- **Facilitated** virtual meetings, improving remote collaboration among staff and stakeholders.
- **Assisted** with Agile software program administration, maintaining the web interface and database integrity.
- **Conducted** digital literacy assessments that informed county ICT adoption strategies, supporting evidence-based policy decisions.

Key Outcomes:

- System optimization, ie Reduced system downtime by 15% through timely hardware and software support
- Improved remote collaboration and communication by successfully facilitating and supporting virtual meetings.
- Strengthened county ICT planning and decision making by delivering digital literacy assessment data used in adoption strategies.

EDUCATION.

Cloud and network security.
Cyber shujaa | started 15th September 2025 completed waiting for graduation.

Bachelor of Science in Information Technology.
The Cooperative University of Kenya | Completed: Dec 2023.

- **Honors:** Second Class Upper Division.
- Key Coursework: Information technology. (System Administration, Web Development, Cloud Services, Data Analysis.)

Web Development Certification.

E-mobilis Mobile Technology Institution | Oct – Dec 2023.

- Focus on **HTML**, **CSS**, **Python**, **Django framework** and responsive design.

Teach For Kenya Summer Institute.
Pre-Service Training | Oct – Dec 2023

- Certificate emphasizing leadership, teaching methodologies, and digital integration.

Kenya Certificate of Secondary Education (KCSE).
Oriwo Boys High School, Homabay County | 2018

- **Mean Grade:** B-

KEY TECHNICAL SKILLS.

- Installation and maintenance of computer hardware, software, and peripherals.
- LAN/WAN configuration and support (routers, switches, and network devices).
- Troubleshooting ICT systems and resolving user issues.
- Data security and backup management.
- Development of ICT support documentation and user training.
- Proficiency in Microsoft Office Suite and other productivity tools.

SOFT SKILLS

- **Leadership & Mentoring** – Guided students and staff to adopt tech best practices.
- **Communication & Collaboration** – Coordinated with educators, local authorities, and peers on IT projects.
- **Problem-Solving & Resilience** – Tackled system outages, found quick solutions, and adapted to new challenges.
- **Project Management** – Organized training sessions, maintained schedules, and documented progress.

ACHIEVEMENTS & PROJECTS.

- **Code Club Initiative:** Launched a coding club at Ezra Gumbe comprehensive school, increasing student interest in STEM by 30% and knowledge in computer by 50%.
- **Digital Literacy Drive:** Conducted field research on digital literacy, influencing local government tech adoption strategies.
- **System Optimization:** Reduced hardware downtime by 15% at ICT Authority through proactive maintenance.
